BUSINESS POLICY

Lammhults Möbel AB must:

- always keep its customers and other stakeholders in focus,
- always abide by the law and other requirements, preferably staying one step ahead of legislation,
- work daily on the continual improvement of its business operations,
- always consider the working environment, sustainability, the environment and quality aspects before deciding on changes and major investments,
- continually improve employee competence, awareness, work satisfaction and professional pride, and
- pursue active cooperation with its suppliers concerning social responsibilities, sustainability, the environment and quality.

Work Environment and Social Responsibility

- We strive for good cooperation between employer and employee with opportunities for influence, personal development and variation.
- We work systematically to ensure that everyone is able to enjoy work and develop personally, and to prevent illness, stress disorders and repetitive strain injuries as well as other physical and psychological injuries.
- We comply with the UN's Global Compact and demand that our suppliers do the same.

Environment

- We work with timeless designs for long product life, thereby reducing the consumption of resources.
- We strive to prevent pollution in all of our processes.
- We develop and produce products from sustainable materials that have the smallest possible environmental impact, do not result in waste but which can be recycled as materials or energy.
- We work to successively reduce the environmental and climate footprint of our production facilities.

Quality

- We provide quality products with long product lives that always meet customer expectations.
- As individuals we work according to the "Right Every Time" principle in all of our processes.
- We see improvement efforts as a natural part of business operations and all of our employees get involved.

The keywords behind our success:

CUSTOMER INSIGHT
PASSION
INNOVATION
