

BAU Modular seating
Design: Note (design studio), 2023

LAMMHULTS

ANTI-ORDINARY, VERSATILE AND EXPRESSIVE

Bau is a modular seating series that ignores conventional ideas of right and wrong. It can be employed as a solitary easy chair or combined to create a playful variety of seating configurations. The collection includes a linking table, whose geometrical edginess contrasts with the sofa's laid-back personality.

Bau is softer, lower, and more eccentric than the often somewhat rigid and conformist modular systems to which we have become accustomed, particularly in workplaces and public spaces. Bau consist of 6 modular units that can be used as solitaires or be combined to create playful seating configurations.

“Our aim was to create a piece of furniture with a lot of character that makes people happy and creative”

— Malin Engvall, one of the designers at Note.

Bau easy chair 90° open large	72	95	39	160					
Bau pouf 45° closed	42	80		100	Bau pouf 45° open	42	80		103.5
Bau pouf straight	42	80		75					
Bau linking table	72	30	49	30					

Shell of fibre board with high resilient polyurethane foam. Adjustable glides. The straight easy chair is available with a swivelbase. All modules can be linked with an additional linking device, all units (except inner corner unit, easy chair 90° open small, and easy chair 90° open big) can be used as solitaires. The inner corner unit is intended for corner use only, not for end units. An optional 30 mm base available to enhance a floating appearance while simplifying the cleaning process. The base can be added to existing units, whether solitaires or linked configurations, and can be combined with both the linking table and linking devices. Linking table, 300x490 mm, table top of 3 mm texture powder coated sheet metal.
