

PORTUS Easy chair & sofa
Design: Johannes Foersom & Peter Hiort-Lorenzen, 2015

LAMMHULTS

ACOUSTICS, ARCHITECTURE, COMFORT

Portus is a gracious architectural family of products with a clear visual identity. The seating series offers many possibilities – a stopping point, a meeting point, a relaxing space or a sharing space – all created by the combination of three simple elements: a soft sculptural bench, an ergonomic support cushion alternatively decoration pillows, and a shapely back.

Portus comes as easy chair or sofa, both with a curved back embracing the seat, commanding presence in the interior while adding visual and acoustical privacy. The legs in wood or steel have a straightforward expression of Nordic simplicity.

SPECIFICATIONS

Easy chair/Sofa
