

**SUNNY** Modular seating  
Design: Note & Gunilla Allard, 2021

**LAMMHULTS**

## **A MODULAR COMFORTABLE SEATING SOLUTION FULL OF PERSONALITY**

Created out of bent steel tubes and supporting fabric, Sunny has a light airy construction, alongside generously padded cushions that give an inviting, plush appearance and relaxing comfort.

When developing Sunny the designers looked to minimise the use of resources, without sacrificing comfort . The designers comment: "The task was to make soft, lounge seating - a little lower, a little softer, a little more relaxed, a little cooler, a little dreamier and a cross-border between public and private."
