

PRODUCT CARE FOR ACCOYA TABLE TOP ON ATTACH OUTDOOR TABLE

CLEANING AND MAINTENANCE OF ACCOYA

UNTREATED ACCOYA TURNS GREY WITH AGE. THE PROCESS MAY BE UNEVEN, AND TO BEGIN WITH THE UNTREATED SURFACE MAY HAVE SPOTS AND STAINS. AS THE FURNITURE AGES, THE WOOD ACHIEVES A MORE EVEN GREY NUANCE.

REGULAR CARE OF ACCOYA NATURAL – THE ACCOYA IS UNTREATED

- BRUSH THE FURNITURE OFF EVERY NOW AND AGAIN.
- WASH THE TABLE WITH A BRUSH AND WATER IF REQUIRED, USING A MILD CLEANING DETERGENT OF PH <9.
- STAINS SHOULD BE WIPED OFF IMMEDIATELY. STAINS MAY ALSO BE REMOVED BY RUBBING CAREFULLY WITH SANDPAPER. THIS MAY HOWEVER DISCOLOUR THE SURFACE, BUT THIS WILL GRADUALLY EVEN OUT.

NB: DUE TO ITS TREATMENT, ACCOYA WOOD IS ACIDIC (PH <7) AND SOME METALS MAY CORRODE IN CONTACT WITH IT. THEREFORE, NEVER PLACE CLEAN METAL SURFACES DIRECTLY ON THE TABLE TOP. ALSO, NEVER TREAT ACCOYA WITH IRON VITRIOL.

REGULAR CARE OF OILED ACCOYA – THE ACCOYA IS SURFACE TREATED WITH RUBIO MONOCOAT HYBRID WOOD PROTECTOR OIL.

DAILY CLEANING

- SPRAY RUBIO MONOCOAT SOAP ONTO THE TOP AND WIPE OFF.

THOROUGH CLEANING, WHEN REQUIRED, SHOULD BE DONE AS DESCRIBED BELOW

- CLEAN THE TABLE CAREFULLY WITH RUBIO MONOCOAT EXTERIOR WOOD CLEANER AND A CLOTH.
- APPLY RUBIO MONOCOAT HYBRID WOOD PROTECTOR WITH A SCOTCH BRITE PAD, LEAVE TO WORK FOR 5 MIN AND RUB AGAIN.
- WIPE OFF EXCESS OIL WITH A CLOTH AND LEAVE TO DRY FOR AT LEAST 24 HOURS.

WE RECOMMEND USING THE PRODUCTS MENTIONED ABOVE. FOR FURTHER INFORMATION ABOUT EACH PRODUCT, PLEASE SEE THE SAFETY DATA SHEETS AVAILABLE ON OUR WEBSITE.
